EXPERIENCE

june 2023 - aug. 2023 — **CRA-W GEMBLOUX - FRONT END INTERN**
- The CRA-W is the center of agronomic research of wallonia
- The goal of my internship was to improve the frontend of a webapp about phytosanitary products
- I worked autonomously to create the new frontend using Vue, TypeScript, and Tailwind
- Slight modifications in the backend made in Django (Python)

dec 2022-june 2023 — **BECODE BRUXELLES - WEB DEV TRAINEE**
- BeCode is an IT training with an active pedagogy

Here are a few projects I've made:
- Built the website of a fictive restaurant (bootstrap, backoffice in PHP)
- Made a cookie Clicker game (Js and Tailwind)
- Project of creating a streaming plateform (React, Tailwind, Node.js)
- Project of creating a social media (React)
- Fashion ecommerce (Vue, Typescript, Node.js)

nov 2021-oct 2022 — **INOUI BRAINE-L'ALLEUD - SALESWOMAN/RETOUCHER**
- Inoui is a wedding dress store
- Helping brides choose the right dress
- Altering dresses to perfectly fit the bride
- Social media managing

may 2021-jul 2021 — **BA&SH NAMUR - SALESWOMAN**
- Stock management
- Customer greeting
- Making the windows
